say he knows a little more about fighting
than you do pall because he inventided it,
and than he perfected it so that no living
man can best him in the ring of honor,
And with his fight money he bought two
of every animal, and herded them on to a
boat, and than beat the crap out of every
single one, and from that day forward
anytime a group of animals were together
in one place its called a zoo, unless its a
farm
